

## Business owner shares tips for future at Chamber luncheon

Joe Nichols Jr. was the guest speaker at the June 6 First Friday Luncheon of the Greater Tomball Area Chamber of Commerce. Nichols was paralyzed from the waist down in a car accident when he was 20-years-old, but went on to become the head of a multi-million dollar corporation. Nichols discussed ways for businesses to keep up with the changing business landscape.

Nichols also will be the keynote address speaker at the CMIT Solutions annual conference in Orlando. CMIT is owned by Tomball's Camille Hamilton, who shares a close relationship with Nichols.

"A company like Joe's depends completely on the smooth functioning of its information technology resources - so we take our commitment to him very seriously," Hamilton said. "But as much as he depends on CMIT, I've come to depend on him just as much over the last year. He's a continual source of inspiration, advice, and support."

He has received numerous production awards including the Chairman's Award for Outstanding Achievement. He is a business owner, public speaker, civic leader, husband, and father to two children. For more information,
