

DENVER BUSINESS JOURNAL

TECH MAKEOVER: CMIT Solutions of Denver is offering a custom technology makeover, worth up to \$55,200, to one lucky small business.

"I've been wanting to do this for a couple of years, because I've seen the need in the small business market to make something available like this," says Debi Bush, chief marketing officer. "Businesses that even are doing well may not want to upgrade all kinds of technology because of the cash-flow issue."

For the winner, CMIT first will do a free assessment of its tech needs and design a custom package. That carries an impressive array of possibilities, including, from Microsoft, Small Business Server 2008 Premium, Windows 7 Ultimate and Office 2007 for up to 15 users; up to 15 cell phones and one year of service from Verizon Wireless; website consulting and more from Lockbox Marketing Group; one week of computer software training from New Horizons Computer Learning Centers; online and social media consulting from Davlin Marketing Group.

The entry deadline is March 28; you can download the form at coloradotechnologymakeover.com. The winner will be announced in a Greater Glendale Chamber of Commerce Business Before Hours morning event April 14 at the Holiday Inn Select, 455 S. Colorado Blvd.
